Web Developer

isaac@akokobireisaac.com | +233 536 469 340 | Accra, Ghana | akokobireisaac.com

PROFESSIONAL SUMMARY

Passionate and self-driven web developer specializing in building modern, client-attracting websites that deliver real business results. Skilled in both front-end and WordPress development, with hands-on experience delivering complete web solutions for clients. Currently pursuing a BSc in Information Technology at GCTU while actively growing a freelance development practice.

TECHNICAL SKILLS

Front-End	HTML5, CSS3, JavaScript (ES6+)
Frameworks & Libraries	React.js
CMS & Platforms	WordPress (Theme & Plugin Customization)
Tools & Other	Git, Responsive Design, SEO Basics, cPanel / Hostinger Hosting

WORK EXPERIENCE

Freelance Web Developer

Self-Employed | Accra, Ghana | 2024 – Present

- Designed and developed a full-featured restaurant website (Park & Pork) including a shopping cart system, WhatsApp order integration, admin dashboard, and mobile-responsive layout.
- Handled complete project lifecycle from design to deployment on Hostinger, including domain and hosting configuration.
- Implemented SEO best practices and performance optimization to improve client visibility online.

PROJECTS

Park & Pork — Restaurant Website

Client Project | Hosted on Hostinger

- Built a complete multi-page restaurant website featuring an interactive menu, shopping cart, WhatsApp integration for orders, and a custom admin dashboard.
- Stack: HTML, CSS, JavaScript, PHP

Developer Portfolio Website

Personal Project | akokobireisaac.com

- Designed and built a professional portfolio site featuring smooth animations, clean modern UI, and project showcases to attract freelance clients.
- Stack: HTML, CSS, JavaScript, React
